

Der Algorithmus für Ihre Karriere.
Das sind wir.

Internship in the field of Advanced Analytics & Big Data

A compelling innovation changed the world: the automobile. That was the origin of today's Daimler AG. Now a premium provider with a global presence and approx. 270.000 employees. Today it is above all IT-based innovations that are changing the world. At the Center of Excellence Advanced Analytics & Big Data, we use highly innovative technologies to develop Advanced Analytics prototypes and are responsible for the global data platform for advanced analytics and artificial intelligence.

Your tasks:

- Support data science and Machine Learning projects across the whole value chain of Daimler
- Collaboration and communication with our national and international partners
- Project related collaboration with other departments, Business and IT partners
- Organization and preparation of community workshops related to the field of Artificial Intelligence and Machine Learning

Your profile:

- You are a student of Computer Science, Mathematics, Statistics, Engineering, Physics or related field
- You are proficient in English, Python and R

- You are highly self-initiative, reliable, and autonomous working
- You possess very good analytical-conceptual skills and a high willingness to learn
- You are a team player and dedicated
